

ICT Consultant for the financial industry (Zurich, permanent, 80%-100%)

About bmpi

bmpi AG has been a trusted specialist for investment reporting and advisory processes in the financial sector since 1997. Our experts support your projects on site or work out a customized solution for you. Our strength is in the combination of specific business know-how, IT expertise and experience in product and project management.

The position

SimCorp Dimension is a well-known investment management solution, which is widely distributed in Switzerland. We want to expand our consulting services in this area and are therefore looking for an ICT Consultant for SimCorp Dimension.

The responsibilities

- Consulting to optimize the use of SimCorp Dimension as well as analysis and solution finding for defined technical topics and requirements.
- Implementation of projects and provision of operational support services at the customer's site using SimCorp Dimension.
- Consulting based on technical expertise.
- Establishment of excellent customer relationships and a cooperative partnership as a trusted advisor for the customer.
- End user communication.

Your qualifications

- University degree (BA, MA) in computer science, Engineering, finance/economics, or comparable relevant qualification.
- Several years of relevant experience.
- Knowledge of securities business, financial instruments, and investment management topics.
- Excellent analytical and problem-solving skills.
- Experience in SQL, PL/SQL and Snowflake is an advantage.
- Very good communication skills and enjoy building and maintaining client relationships.
- Fluent in English, basic knowledge in German.

Why bmpi?

Fairness and participation are our most important pillars. We live both through one simple measure: transparency. Examples of this are salary transparency or the disclosure of the balance sheet and income statement. Furthermore, you can quickly participate in the company if you want to. It is important to mention that self-determination is very important to us – convince yourself.

In addition to the attractive salary, you benefit from profit sharing, compensated overtime, five weeks of vacation, very good pension fund benefits, continuing education, contributions to mobility and communication, employee events, part-time work (also in management positions) and table soccer!
